PLATYPUS COLLAPSIBLE WATER CARRIERS
Travel containers; \$4 - \$19
No posted expiration date

Every traveler knows that it's important to stay hydrated, particularly while hiking and/or sightseeing in the hot sun. What every traveler doesn't know is that now there's an easier way to do it than carrying around unwieldy (and unattractive!) plastic bottles or trusting the local water: Platypus water carriers are collapsible, durable (they have a lifetime manufacturer's warranty), and very inexpensive. They won't flavor water

with any plastic taste, and are so tough they can be frozen or boiled, which means that travelers can sterilize their water right in the bottle. Accessories, such as shoulder totes, water-filter attachments and insulated "overcoats," are also available.
